North Bay Forest Improvement Program: Project Implementation Application

NOTE: We have made a few changes to our cap rates and ranking criteria (found here) since last application round. Please review these changes on our website.

We highly recommend that you have a Forest Management Plan (FMP) prior to applying. If you're interested in applying for an FMP through our program, more information can be found here.

PRO TIP: We suggest that you write and save your answers in a separate document and copy them into this application. Some applicants have reported that their progress wasn't saved when they exited the application and returned later.

1. Point of Contact

First Name*

Last Name*

Email*

Phone*

Mailing Address: Street*

Mailing Address: City*

Mailing Address: State/Province*

Mailing Address: ZIP/Postal Code*

2. Property Description

Is mailing address same as property address? If no, please enter property address below.*

--select an item--

Property Address: Street

Property Address: City

Property Address: State

Property Address: ZIP/Postal Code

County*

--select an item-- ▾

Project Size in Acres*

^ Property must be located in California and between 5 and 5,000 acres of forestland. Forestland can be any of the following vegetation types: oak woodland, redwood forests, mixed evergreen, ponderosa pine.

Assessor's Parcel Numbers (list all APNs relevant to this project)*

Multi-Ownership Project? (i.e. involves more than one landowner/manager)*

--select an item-- ▾

Note: Only one application is necessary for a multi-ownership project

If yes, how many additional forestland owners or managers?

If yes, please add contact information (full name, email address, phone number) and relevant APNs for each additional land owner

Property substantially damaged (wildfire or non-wildfire related) within the last 36 months?*

--select an item-- ▾

3. General Project Information

Does your property fall within a Disadvantaged Community or Severely Disadvantaged Community (DAC or SDAC, respectively)? For locating DAC and SDAC areas, please use this mapping tool and select "Disadvantaged Communities - Block Group (2018)"*

--select an item-- ⌄

Have you entered into a similar project agreement with the Natural Resource Conservation Service (NRCS) that utilizes funds from the Environmental Quality Incentives Program (EQIP)?*

--select an item-- ⌄

If yes, would funding rates in this program allow you to increase treatment areas in association with your active EQIP contract?

--select an item-- ⌄

^ If the above applies, please upload your EQIP contract in the designated box at the end of the application.

Payment incentive rate requested*

--select an item-- ⌄

Do you have a Forest Management Plan (FMP) prepared by a Registered Professional Forester or NRCS conservation planner?*

--select an item-- ⌄

Resource Assessment/Forest Management Recommendations: Briefly describe timber stand descriptions, slopes, Forest Management Plan (FMP) units work will be conducted in (if available), and desired post-project stand condition. (No more than 100 words per FMP unit).*

4. Biological, Archaeological, Historical, and Cultural Considerations

Biological & Natural Area Considerations: Has a California Natural Diversity Database (CNDDB) Records Search been completed?*

--select an item-- ⌄

^ If a CNDDB Records Search has been completed, please upload the map and search results from within at least 3 miles of the treatment unit in the corresponding upload boxes at the end of the application.

Historical & Cultural Considerations: Has an Information Center Records search been completed?*

--select an item-- ⌄

Known Archaeological/Historical sites?*

--select an item-- ⌄

Select box if project area surveys have been completed by an archaeologist or Cal Fire qualified archaeological surveyor (if applicable)

☐

5. Treatment Practices Included in Project

Please list the **number of units** for each practice that you plan to implement through NBFIP. For practice units, please reference the NBFIP Prescriptions and Cap Rates document .

Note: CalTopo is a helpful resource for identifying and estimating acreage. For a demonstration of how you can use CalTopo, please see our Application Assistance Video found here.
