After the Fire USA Tours Beverly Hills with Fire Chief Barton: *Lessons, Insights, and Community Service*

Last month, After The Fire USA embarked on an illuminating journey through the vibrant City of Beverly Hills alongside Fire Chief Barton.

Our discussions, accompanied by detailed maps, offered valuable insights. One highlight was discovering Beacon Boxes—a true fascination!

Our shared belief in continual learning was reinforced during this experience. Serving the community in front of us emerged as a crucial lesson. We recognized that each community is unique, deserving tailored plans and procedures.

Chief Barton's remarkable leadership as an ambassador and civil servant left a lasting impression. Together, we absorbed knowledge, exchanged ideas, and gained invaluable lessons, best practices, and opportunities to extend our support to more individuals.

We express our heartfelt gratitude to BH Commissioner and Advisory Board Member Wendy Nystrom for extending the invitation to address the city and embark on this exceptional tour.
